CERTIFICATE

FDA SILICONE COMPOUND

Certificate FOR FOOD CONTACT
FDA § 21 CFR 177.2600

WESTERN certifies the suitability for repeated contact directly or indirectly with food. Based on combined technical information and component analysis, WESTERN confirms the high level of protection of human health.

All articles are produced in compliance with good manufacturing standards so that they do not transfer their constituents to food.

The articles conform to the Food and Drug Administration (FDA) Regulations §21 cfr 177.2600.

The regulations for documentation and labelling protocol have been fulfilled.
